Royalist counties and the Leave vote

Each dot is a historic county (size = seats today). Left: raw. Right: after region, density and 2011 census composition

Seat-level model (main): -0.30 points of Leave per 10 points of royalist share, 95% interval -0.56 to -0.05;
wild cluster bootstrap p = 0.07. Lines: weighted fits through the county means. maps.tristanhotham.com/civil-war-leave
